

The first day we started in the morning. It was the heaviest day.

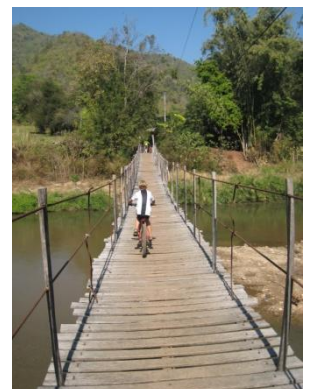

It was off-the-road whole day.....

This was the first water break

At the end we had to climb a very long mountain and cross a scary bridge

But then we arrived in Elephant Nature Park:

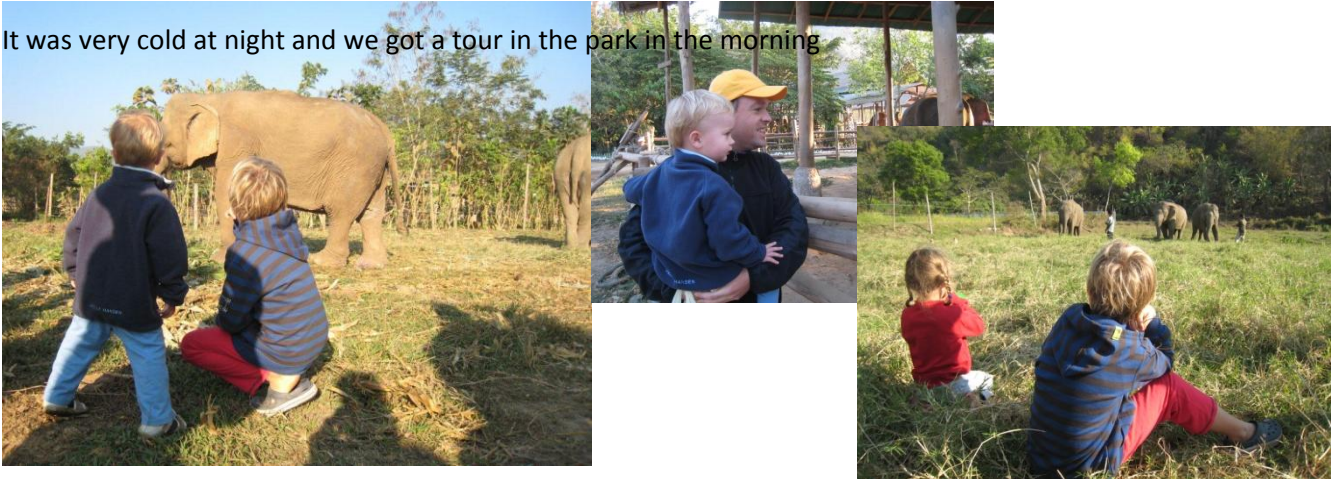

First we watched the baby elephants play in the mud, and two human baby's too..... ☺

Then we washed the elephants in the river.

It was very cold at night and we got a tour in the park in the morning

The biking group collected 250.000 THB. The cheque was given to Khun Lek for the elephants. The Elephant Nature Park is going to buy more land from this money, so that the rescued elephants can relax.

Taiwanese film crew joined the biking trip. I was interviewed many times. I liked it a lot!

Then the second day of biking started. The second day had a lot of mountains. It was very nice to go off hill for a very very long time.

At the end of the day there was a presentation of prizes. I won the prize of best way to get sponsors.

Thank you a lot for your money. It is really good for the elephants that they don't have to do tricks and get hit by sticks and play games. They can have a relaxed life in the Elephant Park.

Especially thanks to my school, ELC, who sponsored us a lot because the school also likes to protect elephants. And also thanks to a company from my Papa's work (East West Seeds). They also gave a lot of money and the pink T-shirts.

From JOOST !!!!!!!
